Mr. Sam'l James,

U.S. Mint,

Phila.

Dear Sir:

Referring to the changes you desire us to make in the floor plate for 10" Roll Lathe covered by your order No. 4 of the 5th inst., we find that to alter the patterns as already partially completed together with other expenses incident to changing the design, will make our price for the work One Hundred and Thirty One Dollars and fifty two cents, ($131.52) instead of as before quoted. Will you therefore kindly authorize us to make this modification in price on your order as received, or if preferable, favor us with a corrected order to cover the work as now required.

Awaiting your instructions, we remain,

Yours truly,

July 8, 1887.

Mr. Jas. P. Kimball,
U.S. Mint,
Phila.

Dear Sir:

Referring to the drawings now before us for making the proposed Planing Machine for 10" Roll Lathe, we find that the bed is 25 feet long, and we find that after the bed is planed and finished as directed, with the exception of the planing of the ways, it will be necessary to put it in a planing machine 30 feet long, and as the only machine we have that is long enough is engaged on work that will require a month or more to complete, we would suggest that you allow us to make the ways on the planer, and charge you $100.00 extra for the same.

Yours truly,

Wm. Sellers & Co.
